

Dear ACS members

It is with great pride that we inform you that our ACS Forum has now 400 members from 46 countries. It's been a long way since our starting with 35 members back in April 2007. We just announced our 8th Symposium and within the next couple of months we'll have our first book out. Of course, this is not including all the other things we have done together: publications, lectures, publications, and more beyond the traditional venue of the conference format.

Nine+ years committed to the advancement, development and dissemination of architectural and interdisciplinary scholarship, research, practice, and education on the significance, experience and meaning of the built environment.

Cheers!

The ACS Executive Committee
