Dear Colleague,

I take this unique opportunity to inform you about my new book "A Holistic Approach to Architecture - "The Felicja Blumenthal Music Center and Library", Tel Aviv, that was just published by the leading publisher in Israel AM OVED Publishers Ltd, Tel-Aviv.

The book aims to arouse public discussion regarding central debates, challenging the general public and 21st-century architects, as to how we should intervene within an existing environment, more specifically an environment with a significant historical value which we must respect and preserve, when integrating it with contemporary architecture.

I hope that this book will be a unique experience and benefit to you and your community as a whole.

The book can be acquired and posted to you directly from Am - Oved Marketing Dept, 22 Mazeh St Tel-Aviv Israel 65213
